Our LED lamps will be used in a wide variety of applications. Every application has its own characteristics. Different dimmers are being used, different fixtures are being used and different ambient temperatures influence the temperature inside the fixtures. These conditions are beyond our control. This compatibility list is based on limited sample size tested under usual conditions, and should be considered as a guideline. This information may be updated and changed from time to time, Please verify if you received the latest updated status. The compatibility is only valid when our customers follow our application engineering guidelines.(available upon request)

**Note:**
